In the event MEC are discovered, the following procedures will be taken:

- ▶ **Recognize** – Recognizing MEC is key to reducing the risk of injury or death. If an object is encountered that is suspected to be MEC, consider it extremely dangerous.
- ▶ **Retreat** – Do not touch, move or disturb it, but immediately and carefully - do not run - leave the area following the same path on which the area was entered. If possible, mark the general area, not the munition, in some manner (e.g., with a hat, piece of cloth, or tying a piece of plastic to a tree branch).
- ▶ **Report** – Report trespassers and activities occurring w/out a permit. If suspect MEC is encountered, immediately contact Camp Navajo Security at (928) 637-0864. Report:
 - ▶ The suspect MEC location.
 - ▶ Direction to the item.
 - ▶ Any landmarks or other features (such as sticks, rocks, flags, clothing) that would aid in locating the suspect MEC.
